Meeting Schedule ::

Frequency

daily

Duration

5 - 15 minutes

Objective ::

Checklist

1. Short report about progress
2. Assign new tasks
3. Create new tasks as new issues in the board
 - 3.1 Decompose tasks into small sub-issues such that every can be finished in one to maximal two days
 - 3.2 Create new branch for every issue
 - 3.3 Write tests for functions and/or properties in reference to the given issue
4. Add time estimate and 'statement of approach' to the issue
 - 4.1 Post the 'statement of approach' to discussion
 - 4.2 Post the time estimate to discussion
5. Use one or more testing styles of your choice like...
 - 5.1 unit-tests (two tests per function)
 - 5.1.1 Use jest for that purpose
 - 5.2 property-based-tests (test functions with properties, every function occurs at least once)
 - 5.2.1 Evaluate at least once a month if an additional pbt makes sense.
 - 5.3 user-interaction tests via puppeteer
6. Confirmation of issue completion
 - 6.1 Checking if the requirements have been fullfilled
 - 6.2 Dragging issue into 'Done' section
7. Merge code after every finished, reviewed as well as tested issue
 - 7.1 Create pull-request
 - 7.2 Other developer should review code and then merge the pull request if ok otherwise refactor.

Naming-Patterns ::

The patterns as RegEx and in plain text...

	Issue	Branch	Commit
RegEx	[a-zA-Z]+ :: [a-zA-Z]+	[a-zA-Z]+[a-zA-Z]+[a-zA-Z]+	[a-zA-Z]+_[a-zA-Z]+
Plain	reference :: description	issueID_module_keyword	issueID_change
